

PATIENT EDUCATION SYSTEMS

ENTERPRISE-WIDE SOLUTIONS DESIGNED FOR YOUR ENVIRONMENT

Patient Education. Patient Safety. Staff Training. Maximizing Reimbursements. These topics are at the core of today's Healthcare. VIZIONefx's platform of Patient Education solutions allow your facility to concentrate on each of these areas - all while improving performance and continuing to deliver top-quality care.

Being informed about options, procedures and steps to recovery are essential to a patient's health and well-being. Our unique Patient Education platforms, which include Continuous Play, Network Control, and Video-on-Demand, allow patients to make those important decisions regarding their care and recovery.

THE ADVANTAGE

- Joint Commission and HCAHPS questions provide metrics to drive excellent patient care
- Increased performance through your Press Ganey Score by continuously improving patient satisfaction
- Increase user satisfaction by making the ordering and viewing process more convenient
- Decrease staff involvement by automating the distribution process - allowing them to concentrate on tasks related to their profession
- Increases opportunity for staff education and training while limiting travel time
- Content delivered to each location can be standardized or completely unique
- System is scalable from one channel to many, flexible content and scheduling capabilities
- Integrates seamlessly with our HEALTHefx in-house channel solution
- Enriched optional services for video digitization, file management, and extended maintenance

CONTINUOUS PLAY SYSTEM

- Simple and cost effective
- Does not require patient or staff interaction
- Educational video playlist will be broadcast on each channel
- Each channel will play the video playlist in series or loop on a 24hr basis
- Video playlist will be staggered across channels
- High demand videos can be scheduled to play more frequently
- Can be upgraded to Video On Demand

NETWORK CONTROL SYSTEM

- All features of the continuous play system
- Includes network control interface to easily manage and schedule video playlist
- Enhanced playlist creation with multiple scheduling options
- Securely accessed from any Internet connected browser
- Many file formats supported

VIDEO ON DEMAND SYSTEM

- Automated for easy to order videos via any existing in-room patient telephone
- Both English and Spanish voice prompts
- Patients and family can order videos at their convenience
- Single point administration increases efficiency and lowers costs
- Adding additional sites at reduced associated costs
- Premier integration support for all PBX interfacing, and ADT via Patient Record Systems
